

2025 Impact

Transformational Results of Your Investment in Brittany's Hope

Humbling, overwhelming, and grateful. In 2025 we looked back over 25 years of uniting **1,618 kids with special needs in families** (25 in this year alone); turning orphanages into children's homes, beginning an Adaptive Living Quarters, providing speech, occupational, and physical therapy, offering medical care, and working to solve the Orphan Crisis by proactively reaching out into the communities with enterprise funding and food relief to keep children with their family whenever possible. As we look back on the past 25 years, we look ahead to all the dreams that will still come true, when we work together.

Adoption: Forever Families

By providing adoption grants for families with the heart to adopt children with Special Needs, Brittany's Hope has been able to make 1,617 Forever Families possible. These children who were once in the confines of an orphanage, many without access to proper medical care and specialized treatments, now have a world of opportunities in front of them, along with the love of a family surrounding them. In 2025, we welcomed 25 children home. One of those children, Mimi, came home just in the nick of time—one day before her 16th birthday. Thank you for being such an integral part of these forever families.

Consistent support of 8 Children's Homes

Brittany's Hope has been able to sustain **long-term, holistic care** for the 361 orphan children we together serve in Brittany's Hope's eight partnered children's homes in **Viet Nam, Kenya, and Ethiopia**. Because of your partnership, we are able to provide stable, family-like homes, to help children step into the future marked by dignity, education, and belonging. Together, we are caring for the fatherless and the orphan—not with one-time help, but with consistent monthly support that creates lasting change.

Pilot Therapeutic Facility

Brittany's Hope **created a home** where children with Special Needs can **thrive**, complete with adaptive equipment and staff trained to provide specialized therapy. Today, 37 orphaned children with a wide range of special needs, are receiving the care they need. Plus, in a culture where having special needs is something to be hidden, families in the community have a place to bring their children to receive specialized education and therapy. Truly a place where miracles happen...children who were bedridden are learning to walk, children who could not communicate are learning to speak and sign, and children who were isolated are now feeling love and joy. Thank you for being an integral part of each miracle.

Vocational & Early Childhood Education

Brittany's Hope partners with the Red Cross Viet Nam to offer specialized training to **50 young adults with special needs**, providing a career and a sense of autonomy. The adults are gaining hands on experience in high-demand trades including tailoring, incense making, and the printing press. Together, we are helping them live lives of dignity and purpose. Across the globe, we also offer early childhood education to **110 children from the largest slum in Nairobi**, Kenya, so parents look for daily work and children can be safe, cared for, and can begin life on the right foot with a bright future ahead.

Paying it Forward...Brittany's Ball 2025!

We were proud to host Brittany's Hope Adoptee and **Paralympic Silver Medalist**, Zion Redington, and his mom, Heather, at Brittany's Ball 2025. Together, the friends of Brittany's Hope raised \$265,000 to fund adoptions, house builds, college scholarships, and the vital, consistent care of the children in our programs.

Our Commitment

At Brittany's Hope 100% of your donation directly benefits at-risk and orphaned children. We believe in the fundamental rights of all children to know the love of a family and to pursue their dreams. We thank you for your passion, time, and gifts, to achieve this mission.

A Home of Their Own

Often children are placed in an orphanage, not because a parent did not love them, but because of a lack of stable shelter. They are forced to make the heart wrenching decision to place their children in a children's home to give them the safety and comfort a home provides. In **2025 we built 7 homes** (\$7,000/home) to keep children together with a parent—with the comfort, security, and pride that a home provides. Thanks to donors like you, **54 families** are now together because of **House Builds**, a program with a 100% success rate.

Education...Breaking the Cycle of Poverty

78 students from Brittany's Hope are currently in college or have graduated majoring in fields including medicine, accounting, actuarial science, education, ministry, and hospitality. Brittany's Hope donors are helping us to combat the Orphan Crisis by elevating students and helping them to **break the cycle** of generational poverty through education.

Above and beyond...because of you

Your 'Yes' to Brittany's Hope has allowed us to go above and beyond meeting basic needs and has branched into Public Health and preventive care—with life-saving vaccines that would otherwise not be covered, including measles and HPV, reducing serious future outbreaks.

Your 'Yes' also enabled children to see a life of possibilities outside the confines of their homes. Field trips open their eyes to a new world, and most importantly, opens their dreams to a world of potential.
